

# JOB\_JO Network Registration Form طلب انضمام " لشبكة الجوب جو "

In the scope of ERASMUS + project JOB\_JO, we have been building a broad JOB\_JO Network to promote employment in the provinces of Karak, Tafila, Maan, Aqaba and Irbid. .

The aim of the project is to recruit Jordanian in remote areas with high rates of poverty and unemployment, through teaching, training, and requalifying the unemployed graduate students and empowering these areas at the economic and social levels with special focus on women.

The envisaged benefits of the Network is:

- i) create, through social networking sites, networking opportunities to aggregate and support ideas, experiences and competences in a common design of women's skills development to play an active role in the social- economic project reference contexts.
- ii) The establishment of the network will make it possible to achieve effective interaction between the project partners to solve unemployment problems.
- iii) the ability to participate in common actions between the members of the JOB\_JO Network, such as: seminars, submission of proposals and development of projects, submission of publications in scientific journals and scientific conferences.

Now that we have been able to build this network it is important to boost the exploitation of all the potential that JOB\_JO Network might bring to all partners. To achieve this, the JOB\_JO website <https://www.mutah.edu.jo/job-jo/index.aspx> is a key tool that we can explore. With that purpose we will share with you in the JOB\_JO website.

We would like to highlight that your collaboration is very important, therefore, we would like to have your contribution in upgrading continuously the JOB\_JO website with information relevant to this project, for this purpose we would like to ask you to fill the information in this form.

The contribution of all will be successful to promote an effective network. Everybody is welcome to join and provide information. Please let your colleagues know about JOB\_JO website and JOB\_JO Network.

Brief description of the company/institution

Provide a short description of your company's/ institution's/ organization's activities, products and/or services  \*

We deliver emergency healthcare and related services to those affected by conflict, natural disaster and disease, no matter where they are, no matter what the conditions. We then train people in their communities, providing them with the skills they need to recover, chart their own path to self-reliance and become effective first responders themselves.

We are a global, nonprofit, humanitarian aid organization dedicated to saving lives and relieving suffering by providing emergency medical services, as well as healthcare training and development programs, to those in great need. Established in 1984 by volunteer doctors and nurses, we are a private group with no political or religious affiliation. Our mission is to improve the quality of life through health interventions and related activities that strengthen underserved communities worldwide. With the flexibility to respond rapidly to emergencies no matter where in the world they occur, we offer medical assistance and training to people at the highest risk, always working to strengthen local healthcare systems and promote self-reliance.

The war in Syria has inflicted unimaginable levels of suffering on its civilian population and has left millions of families with no choice but to flee their homes and seek refuge in other countries. Jordan, which shares its northern border with Syria, hosts more than 650,000 Syrian refugees, roughly 9 percent of Jordan's population. Nearly 80 percent of Syrians in Jordan live outside of camps. With job opportunities limited and much of what they owned lost in the war, Syrian families often struggle to make ends meet. As a result, 93 percent of Syrians in Jordanian towns and cities are living below the poverty line, uncertain of if and when they will return home, as the Syrian war grinds on with no end in sight.
