JOBJO

Promoting youth employment in remote areas in Jordan

UJ Team

JOBJO Project Overview

JOB-JO is aiming to reduce unemployment and poverty in remote areas in Jordan through the establishment of multiple Business Bureaus in the participating higher education institutions. These Bureaus will provide the necessary teaching and training services for unemployed graduates and re-qualify them to increase their job opportunities. JOB-JO also claims to have a special focus on women. The foreseen outcomes will effectively contribute to improving the capacity building process at the national level and to allow graduates to gain the skills and training needed for their profession.

Implementation of JOBJO is the stage where all the planned activities are put into action.

From implementation activities many skills will be obtained such as technical, scientific or communication skills. Also, Strength and opportunities are positive forces that should be exploited to efficiently implement JOBJO project. To specify weaknesses and threats are hindrances that can hamper project implementation and the Sustainability activities are designed to ensure that Jordanian institutions are committed, and have the ability to continue implementation of the outcomes of the project after its lifetime. And to ensure the sustainability, JOBJO project will produce newly prepared teaching materials to be trained to students from all disciplines.

Graduate Package – First Session.

The Office of Communication and Community Service at the University of Jordan, Aqaba branch, organized a training course on 04.11.2019 within Erasmus + project Job Jo in cooperation with the Directorate of Community Development in the Aqaba Special Economic Zone Authority. The course has several topics: communication skills, time management skills, leadership skills, CV writing skills and job interview skills that will last during the period 4-14 /11/2019, where thirty students from different disciplines participated in the university, and progressed b the trainer, Ms. Sana Khataybeh, head of the development of residential areas in Aqaba Special Economic Zone.
