

Name: DALIA MAHMOUD BIRAM

Date of birth: 3/3/1977

Marital state: Married and has two daughters.

Husband name: Amr Abdel Mageed Mohammad.

Husband job: Police Officer.

Address: Anatomy Department, Faculty of Medicine, Alexandria University.

Nationality: Egyptian.

E mail address: daliabiram2@yahoo.com

Telephone no.: 002034045412

Mobile no. : 01222614821.

Qualifications:

* (Bachelor of Medicine and Surgery, University of Alexandria; November 2000, with the grade excellent with honors.

*Master of Basic Medical Sciences in Anatomy and Embryology, University of Alexandria (2007) - with grade excellent.

The title of thesis

Anatomical study of thenar and hypothenar muscles of the hand.

**Doctor of Basic Medical Sciences in Anatomy and Embryology, University of Alexandria (2014)*

The title of the thesis

**The coronary arterial supply of the heart and its venous drainage.
Anatomical and multislice Computed tomographic study.**

Previous jobs:

House officer at Alexandria University Hospital, Egypt
From 1/3/2001 to 28/2/2002.

General Practitioner at Ministry of Health, Egypt
From 1/3/2002 to 30/8/2002

Demonstrator of Anatomy at the faculty of medicine, University of Alexandria from 2002 to 2007.

Assistant lecturer of Anatomy at the Faculty of medicine, University of Alexandria from 2007 to 2014.

Lecturer of Anatomy at the faculty of medicine, University of Alexandria from 2014 till now.

Academic coordinator for the first year international program students, Alexandria faculty of medicine from January 2015- December 2016.

Academic coordinator for the third year international program students, Alexandria faculty of medicine from January 2017 till now.

Registration:

Ministry of health, Egypt, 2001

Special skills certificates:

- Workshop on "Teaching with technology".

- Workshop on “ Code of ethics”
- Workshop on “ Research Management
- Workshop on “ Credit hours”
- Workshop on “ Interactive presentation”
- Workshop on “Modern teaching methods

Teaching activities:

My role in Anatomy department included:

1. General and Regional Human Anatomy for medical undergraduate students.
2. Applied Anatomy and Embryology for medical students.
3. Applied and Surgical Anatomy for medical students of last year, Faculty of Medicine.
4. General and Surface Anatomy for students of Faculty of Fine Arts.
5. General and Anatomy of head and neck of students of Faculty of Dentistry.
6. Applied and Surgical Anatomy for Master Degree in general surgery in Faculty of Medicine, Alexandria University.
7. Anatomy for students of faculty of Nursing.
8. Anatomy for students of Faculty of Pharmacy, University of Alexandria.
9. Anatomy for students of Faculty of Pharmacy, pharos University in Alexandria
10. Anatomy for students of Faculty of Medicine, Bayrout arab University (BAU) in Lebanon

Conferences:

Member of the organizing committee of

Annual scientific congress of Alexandria Faculty of Medicine "Team based medical practice". (18-20 May 2016).

Researches

1- Variant distribution of obtuse marginal artery of the heart (anatomical and multislice CT imaging) THE FASEB journal

2-MORPHOLOGICAL, HISTOLOGICAL AND RADIOLOGICAL STUDY OF DOUDENOJEJENAL JUNCTION

AUSTRALIAN JOURNAL OF BASIC AND APPLIED SCIENCES (AJBAS).

ISSN: 1991-8178 EISSN:2309-8414 PLEA

3-Topographic anatomy of the neurovascular bundle at the tarsal tunnel and its applied significance

**Journal of Experimental and Clinical Anatomy - Volume 17, Issue 2,
July-December 2018**

4- The Biochemical and Histological Effect of Cadmium Chloride on the Pancreas of Adult Albino Rats and the Possible Protective Effect of Nigella Sativa Seeds

Journal of Medical Histology

5- THE TERATOGENIC EFFECT OF

TRAMADOL ON THE SKELETAL SYSTEM AND CORTICAL NEURONAL CELLS OF PREGNANT MICE

6- Title: The teratogenic effect of cyclophosphamide on the embryos of albino rats and the protective effect of folic acid: morphologic study

ID: ZUMJ-2109-2360 (R2)

Authors: Elsayed Mohamed Metwally, Badrya Hefny, Maha Daa Safwat, Dalia Biram

**7- TOXIC EFFECT OF SUBCHRONIC USE OF ARSENIC ON
LIVER OF ADULT MALE ALBINO RATS AND THE POSSIBLE
AMELIORATING EFFECT OF Cerium oxide nanoparticles**

Submit Date: 26 September 2021

Accept Date: 23 December 2021

UNDER REVIEW

2- The skeletal teratogenic effect of cyclophosphamide on the embryos of albino rats and the protective effect of folic acid: morphometric study.

in progress:-

1-EFFECT OF ZINC OXIDE NANOPARTICLES ON SUPRARENAL GLAND IN ADULT MALE Albino rat

**2-The effect of aging on the testis of adult male albino rat,
Histological study**

3- EFFECT OF ZINC OXIDE NANOPARTICLES ON THYROID follicular cells IN ADULT MALE ALBINO RATS.

4-Role of Nigella Sativa Seeds on modulation of testicular toxicity of adult albino rats treated with cadmium chloride.

5- Study of the Protective effect of Pomegranate on the kidney of adult male Albino Rats Treated With Monosodium Glutamate.
